## European Luxury Bedding

Giving your guests the perfect luxury experience!

# LUXURY INNOVATIVE BEDDING SINCE 1987

---

Founded in 1987 in the Netherlands, Europe, Dream Master (a subsidiary of Sleepwell Industries) is a leading end-to-end producer, supplier and distributor of high quality mattresses for hotels, housing developments, and condominiums across the globe. Our long history and global market dominance is a testament to our expertise in the science of sleep and our prioritized focus on pioneering and adopting innovative sleep technology. Dream Master's in-house research and development team strive to ensure we consistently deliver the most advanced state-of-the-art mattresses at any given time.

Today we are one of the world's largest pocket spring manufacturer for the hospitality industry with an extensive reference list that includes Accor Group, Best Western Hotels, Marriott International, Radisson Hotel Group, Okura Group, Onyx Group, Wyndham Group, Jumeirah Hotels, Compass Hospitality and many more independent and chain hotels. We are also trusted by and work closely with some of Asia's largest property developers and hospitals.

Dream Master produces only the best, and that begins with sourcing the highest quality raw materials. Our procurement team has fostered strong relationships with our exclusive suppliers and our experienced manufacturing team, with their attention to detail, ensures quality control for every element that goes into a Dream Master bed. This is well reflected in the numerous international awards, accolades, and certificates we have received for our products.

We offer our customers a full range of four spring systems across 11 models with varying raw materials, firmness, and other technical specifications. Our manufacturing facilities are also experienced in creating bespoke customized mattresses based on customer's preferences and our expert sales team can assist prospective customers through the streamlined selection process. Being the biggest roll-pack bedding manufacturer in Thailand, our customers enjoy the benefits of efficient logistics and seamless delivery of product.

Your satisfaction is our guarantee as your good night sleep is our priority. As the current leader of this generational family business, it is my privilege to give you my personal assurance that Dream Master is committed to developing a true partnership with all our clients. On behalf of Dream Master's entire team – we thank you for your interest in our products and look forward to continue delivering the finest mattresses in the world.

## GLOBAL MARKET PRESENCE

# CONFORMITY STANDARDS & QUALITY CONTROL

As an expert hotelier, you understand that the most quintessential component in any hotel room is a comfortable bed for your customers. Data shows the average hotel customer spends a majority of their time in their hotel rooms on their bed. Dream Master understand this and has created our products to ensure you receive only the best feedback for your bedding. This is our guarantee to you.

Our quality control team utilizes our Dream Innovation Lab to routinely verify our product standards remain top tier. Some of the machineries used in the lab have been highlighted below.

Dream Master mattresses have the highest industry conformity standards to give our clientele confidence in our Thai Chiropractic Association (TCA) endorsed products. Our quality control team commissions the world's most reputable third party testing and certification agencies (SGS, Element, Oeko tex, etc) to obtain key qualifications. These qualifications include:

- Antibacterial Finishes on Textile Materials (AATCC TM 100 : 2019 )
- Water Repellency Test (ISO 4920-2012 ; Spray test )
- Tensile Strength Test (ISO 13934-1:2013 )
- Open Flame Test (16 CFR 1633)
- Cigarette Flammability Test (16 CFR 1632)

**PLEASE SCAN QR**  
For the most up to date  
list of certification

## REBOUND RESILIENCE TEST

This test ensures quality control for the elasticity of all foam used in our finished products ensuring consistency.

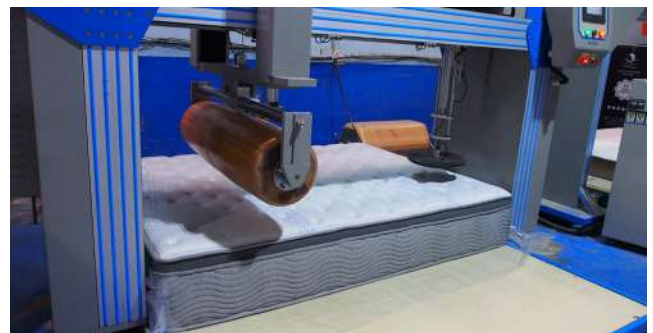

## FIRMNESS RETENTION TEST

Our firmness retention machine tests every inch of our mattresses to ensure we can deliver a diverse range of firmness in accordance to our customers preference.

## FABRIC INSPECTION ROLLING

This machine detects weaving and knitting defects as well as shade variations in fabrics that may not otherwise be visible to the human eyes to ensure our products are quality.

## THE CORNELL TESTING

The Cornell tester tests firmness retention, surface deformation and durability in our finished products by continuously pressing the mattresses over 100,000 times per cycle with a load of 260 lbs for 10.5 hours.

# EXCLUSIVE TECHNOLOGICAL INNOVATION

## COMPACT LOGISTICS

The bulky size and heavy weight of mattresses can often make it a challenge to store and transport. In order to enable the most seamless logistics process for our customers, Dream Master has heavily invested in world-class roll packing machines that use 60 tons of pressure to compress up to a 13 inch mattress to a mere 1 inch within seconds. Our tri-zone iso-coil pocket springs have been specifically designed to withstand such pressure, and when our products are removed from the vacuum seal, it returns to its original form with no impact on the quality of the product. The machine also automatically folds and rolls each mattress to further ensure the most compact end-product for our customers. This advantage directly allows for significant cost-savings and unparalleled efficiency in transport and set-up of Dream Master mattresses at its final destination. For our international customers, rather than the standard 80 uncompressed mattresses in a 40 foot high-cube container, we can deliver up to 300 roll packed mattresses utilizing the same space.

## TURN KEY SOLUTIONS **STANDARD** TEXTILE

As a brand of Sleepwell Industries, Dream Master provides its customers with the advantage of having one vendor for all their bedding needs. From spring boxes, mattresses, to bedding accessories as well as bed and bath linen - we have an extensive array of offerings that fully meets the varied requirements of customers.

For our mattresses - we offer three different spring systems across 11 best-selling models. Be it our award-winning pocket springs coils, advanced off-set spring technology or traditional bonnell offerings - we can create an array of diverse mattresses. All of our mattress products have been tastefully divided into 3 distinct product lines:

- DREAM LUXURY - POCKET SPRING SERIES
- DREAM DELUXE - SUPERTECH OFFSET SPRING SERIES
- DREAM COMFORT - BONNELL SPRING SERIES

Dream Master also offers custom-made top of the line spring boxes, extra beds, legs/castors and headboards. Customers can choose bespoke raw materials, stitching designs, dimensions to customize their orders. Through our exclusive partnership with Standard Textile, Dream Standard Textile is the sole manufacturer and distributor of patented Centium Core sheets across Thailand. Standard Textiles have been the top choice for bedding and bath accessories across the world for nearly a century. Sleepwell industries is proud to bring these premium products to hotels and homes across Asian markets.

# THE MOST ADVANCED SLEEP TECHNOLOGY

## INNOVATIVE TECHNOLOGY

Dream Master has been a pioneer at adopting and developing motion isolation technology in mattresses for decades. Unlike traditional inner-connected spring systems utilized in the majority of mattresses, Dream Master's trizone iso-coil pocket spring technology is designed so each coil reacts independently to pressure. This reduces the impact of disturbance across our mattresses, allowing sleep partners to be unaffected by each other's movements thus resulting in a blissful undisturbed sleep.

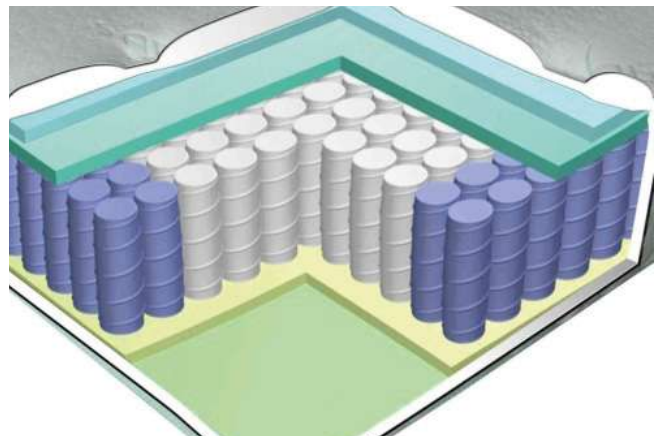

## DURABILITY

Each of Dream Master's three Zone IsoCoil Pocket Springs are individually wrapped in 'Eco High-Tensile Spunbond shrink resistant, tear resistance and breathable pockets that allow for airflow, restrict our products from sinkage and longer durability. Dream Master is the only bedding manufacturer that utilizes 6 pocket turns instead of the standard 5 turns giving our products a longer life span. We also use 2.0 and 2.3 mm spring wires to guarantee quality. As such, we are confident in offering long warranties for all our products.

## PRESSURE RELIEF AND CONFORMABILITY

Dream Master mattresses have multiple accreditations from various institutions globally. This is because the individual movement of the coils used in our mattresses conform to the shape of every sleeper allowing for spine alignment and reducing back problems and discomfort.

## HEAVEN

## ECSTASY

## PARADISE

## PASSION

## SPLENDID

## ATLANTIS

## DELIGHT

Dream Luxury is Dream Master's flagship and best-selling product series. Utilizing our Tri-zone Iso-coil pocket spring technology, these mattresses are specifically designed for pressure relief and extra support where sleepers need it most. All of these products use the highest grade raw materials and can have up to 400 GSM knitted fabrics. Each sleeper using Dream Luxury beds is guaranteed to indulge in unparalleled comfort enhancing their beauty rest.

The dream luxury series offers 7 unique products all utilizing our exclusive tri-zone iso-coil technology but varying in raw materials, dimensions, firmness and upholstery layers according to sleepers choice.

Dream Master is proud to partner with Standard Textile, the world's leading provider of sheeting, top covers, duvets, pillows, terry, robes, and more for the most prestigious hotels around the world. Standard Textile drives over \$1 billion in sales annually and has more than one billion happy sleepers each year enjoying our sheeting.

Standard Textile was founded in 1940 and has built a culture of innovation, quality, and service. As a vertically integrated company, they are the world's leading provider of end-to-end solutions for the institutional textile and apparel markets. With more than 80 patents in place, the products are engineered to deliver durability, longevity, comfort, and value.

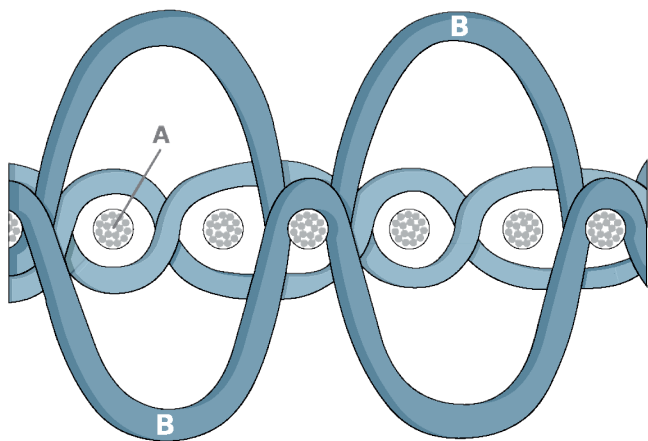

# STANDARD TEXTILE

## CENTIUM CORE TECHNOLOGY

FOR OVER 78 YEARS,  
STANDARD TEXTILE HAS SERVED  
THE FINEST, MOST EXCLUSIVE  
HOTELS AROUND THE WORLD.

The secret to textiles for the bed and bath is that it lasts longer and feels sensuously soft with an ultra smooth feel.

A - Centium Core synthetic micro -filament yarns

B - 100% cotton

The Cotton surface is woven around the Centium Core for a unique comfort, increases strength and extends product life.

True Innovation: Unlike anything else on the market today, Centium Core Technology® is a patented weaving process available exclusively in terry and sheeting products manufactured by Standard Textile.

A ring spun combed cotton surface is woven around their multifilament synthetic core, resulting in the best on-the-body feel and on-the-books performance.

Centium Core Technology® improves product tensile strength, extends service life by up to 30% and enhances performance. You get unsurpassed durability, superior cost management, and a luxuriously soft hand feel that guests love again and again.

### INCREDIBLE WEAVING INNOVATION

Centium Satin™ sheeting is based on an innovation of utter comfort: Centium Core Technology®. For Centium Satin, we have woven a wealth of premium, long-staple ring-spun cotton around an ultra-strong, delicately textured micro -filament yarn. Centium Core Technology® creates a sensuously soft, ultra smooth feel. The softness increases the more it's washed: a proprietary microemulsion finish helps Centium Satin products retain an exquisite feel from beginning to end, which is maintained over time. Engineered durability is at the core of our products which is why ultra-premium Centium Satin is among the longest lasting premium sheets.

# CUSTOMER REVIEWS

"We purchased the Dream Master mattress product for our new JW Marriott Hotel Hanoi. I must say that we have had nothing but positive recognition for our bedding product. We are very pleased with your product, as our guests enjoy restful and comfortable nights. I would happily recommend your product to any hotelier who wants to put their guests' comfort as high priority. Thank you once again for letting every guest experience truly wonderful sleep!" Bob Fabiano - Former General Manager at JW Marriott Hotel Hanoi

We are proud of the superior quality and unbeatable comfort we offer guests. Dream Master mattresses help sustain our edge in an increasingly competitive tourism market. We would like to thank Dream Master for coming through on your promise of high quality bedding. Our guests surely approve and say so repeatedly in their reviews of their stays with us. Vikromjit Sachdev - President/CEO

Starwood Aloft Sukumvit, Bangkok has been using Dream Master Mattresses in our hotel since the year 2012. We are happy to say that we are getting very good feedback from our customers. On a personal level, I am also extremely satisfied with the quality of this product. I would strongly recommend Dreammaster mattresses for other hotel projects. Mr. Bobby Khanijaon - Khamin Development Co.,Ltd. (Aloft Bangkok Hotel)

"Dream Master mattresses are comfortable and luxurious. I have used their products in nearly 500 rooms and in over 6 years of my association with the product I received no complaints, but only compliments from my guests. A great product and great team support. Madhav Bellamkonda - Former GM Novotel Visakhapatnam Varun Beach, India

## AVANI Atrium Bangkok

Patricia295  
Melbourne, Australia

It was an absolute pleasure to be treated to a stay on the wonderful fluffy mattress in our room overlooking the river.

## COMO Metropolitan Miami Beach

YU M  
New York City, New York

Spacious/clean/comfortable. The bed was so heavenly and we actually asked where we can purchase the mattress-its custom made for COMO hotel chain

## Courtyard Hong Kong Sha Tin

AmbLee  
Port Alfred, South Africa

...The BED was very comfortable!

## Grand Mercure Mysuru

poojabhar  
Bangalore, Karnataka, India

...Bed was super comfortable ( I was happy that the mattress and pillows were just perfect)

## ibis Singapore Novena

danjumbucki  
Kuala Lumpur

A major plus point for me is the ibis bed. Nothing fancy but just the right firmness ( I find most hotel mattresses way too firm or way too soft)

## The Athenee Hotel

Moleficlenia  
Almaty, Kazakhstan

...And Bed...oh my God. you should try that bed, it seems that it was made for real king/queen. Sweet dreams guaranteed!

## Jumeirah Vittaveli Maldives

Tanika204  
Dubai, United Arab Emirates

...The bed was huge and incredibly comfy

## Le Meridien Bangkok

chen y  
Lijiang, China

..Really comfortable mattress and great nights sleep

## Best Western Premier Sukhumvit

roland540  
Singapore, null, Singapore

I love the bed very much, very comfortable.

## Amari Watergate Bangkok

Chris G

..Our bed was so big and comfortable and we didnt want to get out of it

## Fiji Marriott Resort Momi Bay

Amelia T

...The bed was one of the comfiest I d ever slept in

## Holiday Inn Bangkok Sukhumvit

Craig C  
Greater London, United Kingdom

..The bed was very comfortable I slept well on all three nights

## Eastin Kurseong Darjeeling Hotel

Sanidhya G

Amazing sleep experience. Bed,linen towels all top of the line.Wow. Will definitely recommend to anyone who wants a unique curated experience of a lifetime!

## JW Marriott Phu Quoc Emerald Bay Resort

MrCall  
London, United Kingdom

..The bed was amazing.Decent topper and was a lay in bed all day tyoe of deal.

## Kempinski, The Pearl - Doha

Oneproudmommy

...The bed was big and my daughter said its very comfy!

## Bangkok Marriott Marquis Queen's Park

ifran450

comfort of bed was something very special
